

SpringSoft

FACT SHEET

BUSINESS

SpringSoft, Inc. is a global supplier of Electronic Design Automation (EDA) software to the semiconductor and electronic systems industries. It provides specialized automation solutions to address key pain points in the chip design process. SpringSoft's technology helps accelerate engineers by automating complex and tedious tasks, freeing them up to focus on more value-added functions.

PRODUCTS

SpringSoft specializes in providing unique automation technologies that save engineers time in the design and verification of integrated circuits (ICs). The Company's product strategy focuses on critical design tasks involved in 1) understanding and verifying the functional correctness of a design's logic and 2) implementing the physical design layout. These products include:

Novas™ Functional Closure Solutions

- [Verdi™ Automated Debug](#)
- [Siloti™ Visibility Automation](#)
- [Certitude™ Functional Qualification](#)
- [ProtoLink™ Probe Visualizer](#)

Laker™ Custom Design Solutions

- [Laker Advanced Design Platform](#)
- [Laker Custom Layout Automation](#)
- [Laker Custom Digital Place and Route](#)

CUSTOMERS

SpringSoft's customers include the world's leading semiconductor and electronic systems companies. Its Novas line of products has more than 12,000 licenses installed. Its Laker line of products is used by more than 300 companies worldwide.

PARTNERS

SpringSoft's Harmony third-party community includes more than 65 partners who work with the Company to ensure tight integration and compatibility among their products.
